**June 4<sup>th</sup>, 2015**

**NSP Announced May Revenue of NT\$1,624 million  
with 4.28% MoM Growth**

Neo Solar Power Corporation ("NSP", or "the Company", publicly listed on Taiwan Stock Exchange, Ticker: 3576 TT), a world-class leading producer of high quality solar cells in Hsinchu, Taiwan, today announced April revenue of NT\$1,624 million with a MoM rate of 4.28%.

The increase of NSP's May revenue reflects the improving demand conditions in the solar industry resulting to the upward trend in shipment and higher capacity utilization rates in comparison to Q1.

Solar industry has become one of the most important industries which each country pay much attention to. It can be expected that the solar market will be constantly developed by rising demand. By means of its strong semiconductor industry experience and vast solar device physics expertise, NSP will continuously devote to technology research. In addition, NSP's strategies of expanding solar system projects can provide not only a steady profit source but also increasing sales pipelines for NSP's solar cells and modules to maintain growth momentum.

NSP Consolidated Revenue Report (Unit : NT Million)							
May 2015	April 2015	MoM	May 2014	YoY	Accumulated Revenue 2015	Accumulated Revenue 2014	YoY
1,624	1,557	4.28%	2,624	-38.11%	7,811	12,456	-37.29%

**About Neo Solar Power Corporation (3576 TT) (NSP)**

Founded in 2005 by Dr. Quincy Lin (former Senior VP of TSMC) and Dr. Sam Hong (former Director of ITRI Research Division), Neo Solar Power Corporation (NSP) is a leading manufacturer of high performance and high quality solar cells and modules. With core competitive advantages in quality, technology and customer service, NSP became the world's largest merchant solar cell manufacturer by volume in 2013. After selling DelSolar to NSP, Delta Electronics (2308, TT) became the biggest shareholder of NSP with a 19% holding. Leveraging current leading position in solar cell technology, NSP will further expand into the global solar systems businesses, aiming to become the leading solar system integrator in the world.
