NSP Announced February Revenue of NT\$1,467 million

Neo Solar Power Corporation ("NSP", or "the Company", publicly listed on Taiwan Stock Exchange, Ticker: 3576 TT), a world-class leading producer of high quality solar cells in Hsinchu, Taiwan, today announced February revenue of NT\$ 1,467 million with a slightly declined MoM rate of 2.71% despite the fewer working days in February. However, various research institutions forecast a two-digit increase of global installations this year and therefore, the shipment is expected to be driven by the increasing market demand and will recover gradually.

NSP continuously devotes to R&D and develops new products by means of its strong semiconductor industry experience and vast solar device physics expertise. In both 2014 and 2015, NSP obtained project subsidies from Taiwan's Ministry of Economic Affairs to conduct R&D for high-efficiency products. This again recognizes NSP's strong R&D strength and the leadership in solar industry.

NSP Consolidated Revenue Report (Unit: NT Million)							
Feb 2015	Jan 2014	MoM	Feb 2014	YoY	Accumulated Revenue 2015	Accumulated Revenue 2014	YoY (%)
1,467	1,508	-2.71%	2,335	-37.18%	2,974	4,759	-37.50%

About Neo Solar Power Corporation (3576 TT) (NSP)

Founded in 2005 by Dr. Quincy Lin (former Senior VP of TSMC) and Dr. Sam Hong (former Director of ITRI Research Division), Neo Solar Power Corporation (NSP) is a leading manufacturer of high performance and high quality solar cells and modules. With core competitive advantages in quality, technology and customer service, NSP became the world's largest merchant solar cell manufacturer by volume in 2013. After selling DelSolar to NSP, Delta Electronics (2308, TT) became the biggest shareholder of NSP with a 19% holding. Leveraging current leading position in solar cell technology, NSP will further expand into the global solar systems businesses, aiming to become the leading solar system integrator in the world.
